

As we wrap up National Library Card Month, we would like to highlight some of the fantastic resources that you may not be aware of that are available to you with your library card. Not only do we have a great selection of DVD's and Blu-rays in the library, but your library card will give you access to [Hoopla](#). Hoopla provides thousands of movies, television shows, and music to stream on your mobile devices, tablets, or computer.

If you like to listen to audio books on your commute, we have two options for you. You can check one out from a large selection at the library and listen on CD. If you prefer, you can download one from [OneClick Digital](#) and listen on your computer or transfer it to a mobile device such as a cell phone.

In addition to the many magazines we have for you to enjoy in the library, a library card gives you access to [Zinio](#), which lets you download unlimited magazines to your tablet, mobile device or computer. Once downloaded, there is no expiration date and they remain on your device until you delete them.

All you need to have access to these great resources and so much more is a library card. Stop in and register for a card if you don't already have one. You receive a free book bag through the end of September for a new membership. As always, library cards are free!
